

main.c...

Output

```
1  #include <iostream>
2  using namespace std;
3  int main (){
4      int a, b;
5      cout << " The first number is ";
6      cin >> a;
7      cout << " The second number is ";
8      cin >> b;
9
10     cout << " Addition:" << a+b;
11     cout << " Subtraction:" << a-b;
12     cout << "Multiplication:"<<a*b;
13     cout<< " Division:" << a/b;
14     return 0;
15 }
```

Run

main.c...

Output

The first number is 20

The second number is 10

Addition:30 Subtraction:10Multiplication:200

Division:2
